Many Prices Reduced!

In spite of rising markets we have reduced 96 prices. Only Pin Oak and Sweet Gum have been advanced, and the price of these two now includes balling and burlapping. We are trying to give you inducements to plant this fall by giving you exceptional values. We assure you well grown stock, liberally graded and properly packed, with good service—our policy since 1875. We feel sure we can please you.

These prices will be maintained this fall unless State or Federal regulations, or the nurserymen's Code, which we have signed, make an advance necessary. Prices will have to advance with improved business conditions. Should you wish to plant in the spring, let us reserve for you now.

Globe Arborvitae is naturally globular in form

Hardy Evergreens

Our evergreens are grown with plenty of room and are compact, well filled trees of their size and variety. They have been transplanted and root pruned and are well rooted. They are not grown rapidly and soft but are firm and easily transplanted. They are liberally graded. With the exception of the "mail size" they will be dug with a ball of earth wrapped in burlap, termed "balled and burlapped" or B. & B.

MAIL SIZES, POSTPAID

Our mail size are transplanted, sturdy little trees, not balled and burlapped as these sizes do not require it. The value of trees cannot be shown in a catalog. A mail size evergreen may be worth a dime or a dollar. It may be a spindling little tree that requires petting, or a well grown tree that with reasonable care gives good results. We intend to give you your money's worth. Plant these mail sizes **firmly**, water them as the season requires and they should give you good results. They are not yet old enough and large enough to give the immediate effect of balled and burlapped sizes. Give them time to grow into larger sizes and we think they will please you. B. & B. trees cannot be sent by mail.

THE ROSE, QUEEN OF FLOWERS

A booklet of cultural suggestions and more complete descriptions, mailed on request,

Liberty Irises; Fleur de lis

Plant lots of Irises for their grand and royal colors and their beauty of form and texture. Mass them at the borders of the lawn, or among shrubbery. Plant them along walks and drives, and in the herbaceous border.

They are perfectly hardy.

They are easy to grow.

They usually bloom the first season.

They increase rapidly.

They grow in almost any soil.

They furnish a wealth of color in May.

The standards are the upright or standing petals, the falls the lower or drooping petals. The inches or feet in the descriptions is the height of the flower stems.

Plant in full sun in any good mellow loam that does not become excessively dry; very effective along a stream or pool. Water must not stand on the roots. Six-petaled are termed double, three-petaled, single.

White. Early, double, 20c each, \$2.00 per doz.

Showy Japanese Irises for tall borders or at the water's edge

Peonies are Easily Grown

Hardy as the oak, Peonies are so easily grown that little need be said. Often, in neglected gardens, one sees large clumps that have flourished and bloomed for years. Yet they amply repay all attention given them. They thrive in almost any good, well drained soil, are best in full sun but succeed with shade part of the day. Plant 3 feet apart. The early varieties usually begin blooming here about May 5 to 8.

The name and date in parenthesis is the originator or introducer and date of introduction. The guards are the wide outer petals. The type of flower is designated as follows:

Crown. Wide center or crown petals with narrower, shorter petals forming a collar or ring between them and the guards.

Bomb. Center petals of uniform width but narrower than the guards and forming a globe within the guards.

Semi-rose. Flowers that would be classed as rose but for an occasional pollen bearing stamen.

Rose. Perfectly full, all petals wide, no stamens. The center petals may not be as wide as the guards but if quite distinct it would be a bomb.

PEONY SIZES AND PRICES

Prices quoted are for good strong divisions of 3 to 5 eyes from blooming plants. We consider them fully equal to one-year plants usually sent out. If you want something larger order 5 to 8 eyes at fifty per cent advance or 8 to 10 eyes at double the printed price. 3 of a kind at dozen rates.

PEONIES BY PARCEL POST

If wanted by parcel post allow 8c for the first plant and 2c for each additional plant if within 150 miles of Sarcoxie. For the balance of Missouri and adjoining states 10c for the first plant and 3c for each additional plant. For more distant states 15c for the first plant and 8c for each additional plant. Any balance will be refunded.
